1 General Introduction

Thank you for choosing AWP-G series CDMA Fixed Wireless Phone of AsiaTelco. To use your phone well, please read this user manual carefully before you use.

The phone has been designed to operate with the latest digital communication technology - Code Division Multiple Access (CDMA). The phone provides the following advanced features:

- ✧ Large LCD with backlight, easy to read
- ✧ Status Indicators
- ✧ Two-way SMS, voice mail and caller ID
- ✧ Call Forwarding, Call Waiting, Three-Way Calling
- ✧ Emergency call
- ✧ Menu driven interface for easy operation and configuration
- ✧ Store 200 contacts
- ✧ Save 200 SMS
- ✧ Last call redials
- ✧ Choice of 15 ring tones and power On/Off music
- ✧ Adjustable ring and voice volume
- ✧ AC power supply
- ✧ Indoor antenna (and Outdoor antenna is optional)
- ✧ Speaker phone for hand-free operation
- ✧ User friendly keypad
- ✧ Long battery stand-by and talk time
- ✧ Easy to service and repair

2 Important Information

- ✧ The product can only be installed indoors.
- ✧ Do not place the phone near high temperature objects, under direct sunlight, near source of water, near fire or near inflammable and explosive materials. Avoid using the phone in high temperature or humidity.
- ✧ The phone may interfere with heart pacemaker, hearing aid and other electronic medical devices. Therefore please follow the instructions given by your equipment suppliers or consult your doctor. Turn your phone OFF in health care centers if any regulations posted in the area instruct you to do so. Hospitals or health care centers may be using equipment that may be sensitive to external RF energy.
- ✧ Place the phone away from other electronic devices like TV and Radio to avoid interference.
- ✧ Keep the product away from magnetic field and static electricity.
- ✧ Place the phone out of the reach of small children.
- ✧ Do not attempt to reassemble the phone by yourself. Only authorized personnel could service the phone and its accessories. Faulty installation or service can be dangerous and may invalidate the warranty.
- ✧ Do not clean the phone while in operation. Before attempting to clean the phone, turn the phone off, disconnect the external power adapter and take out the battery. Use a dry, soft cloth for cleaning. Do not use liquid or aerosol cleaners.
- ✧ Do not drop, knock or shake the phone. Rough handling may break the phone body and internal circuit boards.
- ✧ Do not use the phone if the antenna is damaged. Replace the damaged antenna immediately by a qualified technician. Use only a manufacturer approved antenna. Non-approved antennas, modifications or attachments may impair call quality and damage the phone.
- ✧ Do not hold the antenna during operation. This may affect call quality and cause the phone to operate at unintended power levels.
- ✧ Keep the antenna free from obstructions and position the antenna straight up. This will ensure best call quality.
- ✧ Only use the battery and the power adapter approved by the manufacturer. If not, it may cause an explosion or result in a short circuit.
- ✧ It is highly recommended to fully charge the battery before initial use. The battery might have been discharged during storage and delivery.
- ✧ Do not throw battery. Batteries are not to be disposed off by putting them in fire. It may explode or catch fire.
- ✧ The power adapter must be used within the specified AC voltage range.
- ✧ Take out the battery if you won't use your phone for a long time and keep the battery well.
- ✧ During lightning, do not touch the power plug. It may result in an electric shock or death.
- ✧ Do not touch the plug with wet hands. Always grasp and pull the plug, not the cord. Do not put heavy things on the power cord or bend it too much.
- ✧ During daily use, do not pull out the power adapter. The battery is used for backup power, which will not cause the increasing consumption of electricity.
- ✧ Don't use the power adapter if the power cable is damaged. Contact the maintenance center immediately and replace the adapter.

3 Product Overview

3.1 Packing List

Once you open the product package, please check the packing list to make sure there is no part missing. If any part is missing or broken, please contact the customer service. The packing list is as follow:

No.	Name	Qty.	Remark

4 Basic Operations

4.1 Power On/Off

Hook up handset to your phone and put the handset to hang up position, then connect DC power supply to the “DC IN” port at the rear of the phone or insert the battery to the battery chamber. Switch the “Power” switch (on the rear of the Phone) to ON, then press the Power On/Off Key on the panel for 3 seconds to power on the phone, your phone should go to idle screen and is ready to use.

You can turn the phone off directly by switching the “Power ON/OFF” switch (on the rear of the phone) to OFF position. If the phone will not be used for long time, please turn this switch to OFF. Or you can press the Power On/Off Key for 3 seconds to power off the Phone.

4.2 Make a Call

While your phone is power on and at idle screen, enter a destination number you wish to call, then press “CALL/REDIAL” Key. (Note: To modify digits you enter, you can press “CANCEL” Key to delete wrong digits first and then enter new digits). Once the call is connected, the phone’s screen will display the number you have dialed, and the time duration the call has lasted.

The phone also has a speaker. To use the speaker to make a call, press  Key, enter a phone number, and press “CALL/REDIAL” Key.

4.3 Answer a Call

When there is an incoming call, the phone will ring and display the Phone number of the incoming call (if the number is available). You can pick up the handset or press  Key to answer the incoming call. The ring tone and ring-tone volume can be changed in the setting menu.

4.4 End a Call

You can end a call by pressing “END” Key. If you are using the handset for a phone call, hanging up the handset will end the call automatically.

5 Main Menu

Press ◀ Key to enter the main menu from the idle screen. The main menu includes: Contacts, Messages, Recent Calls, Tools, and Settings. The menu tree is as follow:

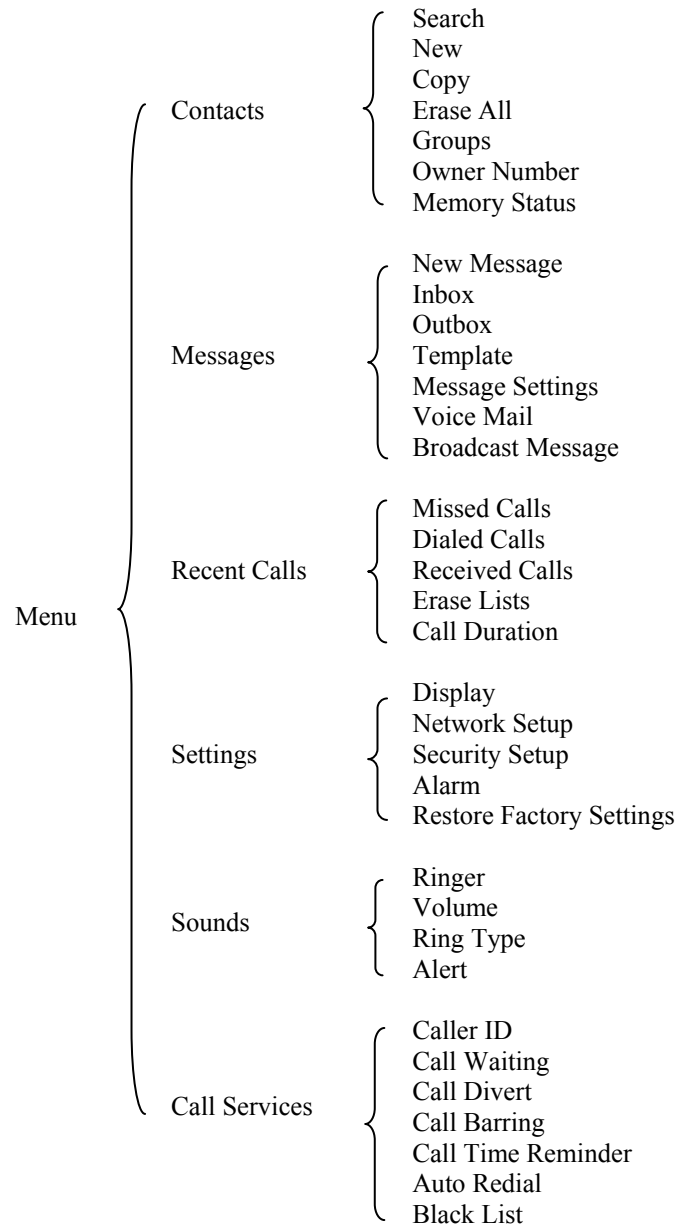

Figure 4 Menu Tree
